

List of Dissertation Topics and Possible Supervisors in Mechanical Engineering Sciences Field

Dissertation Topic	Institution	Supervisors
Modeling of wear of machine element in technological environment as an object to reduce resistance force and wear (optimization of shape)	VMU AA	Prof. dr. Vytenis Jankauskas
Research of the combine threshing mechanism technical condition by vibration analysis	VMU AA	Prof. dr. Eglė Jotautienė
Tribological research on the use of self-lubricating polymer from biological waste materials in mechanical systems	VMU AA	Prof. dr. Juozas Padgurskas
