

# Biosystems Engineering 2021

12<sup>TH</sup> INTERNATIONAL CONFERENCE, 5-7 May

The Biosystems Engineering conference is organised by Estonian University of Life Sciences. It aims to become the leading annual conference in Baltic region in fields related to traditional and modern engineering techniques and technical solutions applied to biological systems. The goal of BSE 2021 is to gather scholars from all over the world to present advances in the fields of biosystems engineering and to foster an environment conducive to exchanging ideas and information.
