

Annual conference *Human and Nature Safety* is organized on occasion of the International Days of Health, Environmental Protection and Occupational Safety & Health.

The purpose of the Conference is to discuss interrelated human safety & health and environment protection problems, create opportunities for scientists and other researchers (especially younger) share the research results not only among researchers and students, but also between farmers, agricultural experts, representatives from forestry and other sectors. Also, to promote safe, healthy, and environmentally friendly lifestyle.

The Conference is organised under supervision of the Institute of Agricultural Engineering and Safety, Agriculture Academy of Vytautas Magnus University.
