BRANCHES

BOOSTING RURAL BIOECONOMY NETWORKS FOLLOWING MULTI-ACTOR APPROACHES

WHO WE ARE

BRANCHES is a H2020 Coordination and Support Action (CSA) Project that brings together **12** partners from **5** different countries: Finland, Germany, Italy, Poland, Spain

BRANCHES AIMS TO

- Promote bioeconomy and rural development through sustainable biomass chains
- Increase implementation of cost-efficient new technologies
- Improve the connection between industry and science of bio-based economy
- Disseminate technologies and best-practice in bioenergy and bioeconomy in rural areas

BRANCHES PROJECT WILL

- Organize and manage **5** National Thematic Networks to guide European practitioners towards sustainable activities
- Select and share at least **50** Best Practice useful to the bioeconomy
- Gather demands and needs of practitioners through **28** dedicated workshops
- Disseminate knowledge through **5** national seminars, **10** show case days, **10** videos
- Inform thousands of stakeholders using the newsletter, social media and the project website.
