The link for joining the conference event presented at the end of this programme

Presentation 1

Title: Application of sustainability indicators in agriculture – practical significance and indicators of environmental, social, and corporate governance approaches.

Speaker: Aija Pilvere, Assoc. professor at Latvia University of Life Sciences and Technologies

Author: Aija Pilvere, Assoc. professor at Latvia University of Life Sciences and Technologies

Annotation: Sustainability is becoming more important in agriculture, and ESG indicators help measure it. This presentation examines the application of environmental, social, and governance factors in farming to enhance practices and decision-making. The presentation will explore which indicators matter most and how they could be applied in real life in agriculture in Latvia.

Keywords: Sustainability in agriculture, measuring of ESG indicators, farming practices, Latvia.
